Last-Updated: 21 Dec 1993
 Archive-Name: games/netrek/server-list
 Changes: Servers now sorted by type; many thanks to Andrew Markiel for the formatting.

This is a list of all known public Netrek servers. If you know of any others, or if any of my information is wrong, please mail tom@soda.Berkeley.EDU.

Note: All servers are UDP unless noted otherwise.

Subject: Vanilla servers in America (short listing)

Description: These servers are based on the original code, Terence Chang's bronco code, or Nick Trown's New Vanilla release. They are not all identical but they have minimal modifications.
