It looks like Sven's forwarder is not working. The Netrek Continuum can be directly accessed at <http://www.vec.wfubmc.edu/~ahn/netrek/index.html>. Also, try the beta site (no frames, finally) with some minor improvements and layout updates at <http://nt.vec.wfubmc.edu>. You can bookmark that page, since I just asked Sven to update www.netrek.org to resolve to nt.vec.wfubmc.edu.

Also, I might as well announce that <ftp://ftp.netrek.org/pub/netrek/> is now official. It contains almost all known Netrek software including mirrors of major Netrek FTP sites. There are a few files missing (such as Sheldon's Netrek1999 beta clients), and I do need to finish the HTML front end. This site is located in the US, and there will be a mirror in Europe.

If you have problems accessing either the Netrek Continuum site or the Netrek FTP archive, let me know.

Dave.
